**VISIT THE NURSERIES.** We earnestly urge that you come and see us as the best means of knowing exactly the quality and kind of plants we grow. When writing us please use your business stationery as this list is intended for the Trade only.

**WE MAKE OUR SHIPMENTS** either by C. B. & Q. or Northwestern Railway both of which roads make immediate connection with the Chicago Outer Belt Line which connects with all roads leading out of Chicago. This gives us the best shipping facilities obtainable.

## Spirea Richmensis

This plant is a coming popular shrub. It has dark green foliage and plenty of it. The stems are stiff but arching. The flowers are of a beautiful Rose Pink borne on terminal panicles. It is a Florists' flower as well as a high class border plant. Planted in mass it makes a gorgeous display of lively foliage crowned with many wonderful panicles of flowers.

Young's Spirea Richmensis is taking its proper place in American Horticulture as a plant worthy of cultivation by Nurserymen and Florists. It is loved by the public and we believe it will soon become as popular as the Spirea Van Houttee, commonly called Bridal Wreath.

We are happy to be able to introduce such a valuable shrub as Spirea Richmensis. For prices see under Shrubs and also under Lining Out Stock.
